Message Body:

Dear Ripple employee,

We have invested heavily in XRP and want to invest more for the future of our company. But we keep hearing disturbing noises that Ripple and XRP are to be seen as two different companies and that Ripple might not keep using XRP and will destroy it's value when leaving XRP.

We love XRP but without reassurance that Ripple and XRP will keep working together it's not a good idea to invest any more fiat into the project.

Can you please ease our minds and reassure us Ripple and XRP will never split up? We always assumed XRP can be seen as the shares of Ripple but we need to be sure this is the case before investing any further into the project.

These noises are being heard more and more online, so if you want to keep Ripple and XRP stable this issue should be addressed publicly to so things won't get volatile again because of fake/false information.

Waiting for your response.

Best Regards,
[REDACTED]
